

VOLLEYBALL CLINIC

Satellite Camp

Nashoba Regional High School

NEW THIS SUMMER! Due to increased interest for our clinics outside of the greater Boston area, we are offering our first satellite clinic hosted by Nashoba Regional High School. This 3-day All Skills Clinic will mirror our Tufts 3 Day Clinic (including specialty positional training) when it comes to instruction. Due to being off-site, lunch will NOT be provided. We will still host a College Q & A session after the last session ends on the 15th. This clinic is designed for athletes entering grades 6 -12 but due to court limitations, we will have a strict player cap of 50. During these three days, we will work hard to improve your current skills while giving you tips on how to raise your game to the next level. Our overall goal is to provide you with the best technical instruction possible allowing you to learn the skills necessary to develop into a more complete player.
